NOC Date:		Citizen Complaint:	NO	Multimedia Inspection:	NO	Sampling:	NO	Not Subtitle C:	NO	Day Zero:	07/02/2014	Focus Area:
Eval. Notes:	A compliance evaluation was completed based on a referral from Water C&E. This was triggered by a complaint of dumping hazardous waste in the sewer system. Initial visit was on 7/2/14 and I accompanied Theo Ashie from water, Kevin Marlowe from UST, and 2 inspectors from PVSC. During this visit, the plant contact, Mr. Bensen, was extremely agitated at our presence and claimed the previous owner is calling in the complaints and none of it is true. The majority of this day was spent looking for evidence of any dumping. A brief walk through was completed to ascertain if any hazardous waste is even generated. Due to the high heat and minimal cooperation from Mr. Benson, the remaining inspection would be conducted on a future date. On 7/8/14 I returned with Mr. Martin Sanchez, also from hazardous waste C&E. American Fabric Processors dyes fabric for the manufacturing of the american flag. Many chemicals and dyes are used in the process, but according to Mr. Bensen, no waste is ever generated. Some of the chemicals used include acetic acid, ammonia, hypochlorite solutions and hydrogen peroxide. The are used to prepare the fabric so the dyes can properly adhere. Waste water is sent to a storage basin below grade then discharged to the PVSC. Expired discharge permits are being handled by Water C&E and PVSC. This inspection did not reveal any evidence of hazardous waste or the potential of hazardous waste to be collected. No violations are noted at this time.											

No Linked Violations

Note: Penalty information associated with an enforcement action is reported with the enforcement action. For enforcement actions associated with multiple violations, the penalty information will be reported with each violation, however, the penalty is only assessed once, regardless of the number of violations associated with the enforcement.
